

Grass-Fed, High Vitamin

BUTTER OIL

From 100% Organic

GREEN Pastures

"A Better Food For Greater Good"

What is Organic Grass-Fed Butter Oil?

- A product of fresh non-homogenized milk from cows grazing in a green pasture. Cows are never fed grains.
- Naturally rich in vitamins (A, E & K), antioxidants & Conjugated Linoleic Acid (CLA: a healthy fat).
- A product that smells and tastes REAL.
- No salt, preservative, flavor or color added.

Green grasses are rich in precursors of vitamins A, E & K. Our cows graze on 100% Organic GREEN Pastures and consume grass that is rich in Vitamins. These vitamins are fat soluble and stays with fat portion of the milk. We use milk from cows grazing in lush GREEN pastures that is why our butter oil is enriched with vitamins A, D, & K, anti-oxidants and Conjugated Linoleic acid (CLA).

Why use Grass-Fed Butter Oil?*

- To boost your immunity and health.
- When applied on the dry skin or wound it penetrates deep and has healing properties.
- Facial moisturizer. It softens the skin, nourishes tissues and enhances beauty.
- Helps to regularize bowel movement and relieve constipation.

How do I store Grass-Fed Butter Oil?

Treat it the way you would treat butter at home. If opened jar is too soft, put it back in the refrigerator, if it is too solid, keep outside. For best results store butter oil in a cool, dry place. Unopened jar can stay in refrigerator/freezer up to 2 years.

Take two or three teaspoons daily for good health.
